Navalny has never received one dime from the US government. That is a complete myth. 100% false. When I was the US ambassador to Russia, he wouldn't even meet with me. Not once. (Putin's party members came to dinner at my house all the time.)

## Strengthening Health Cooperation and U.S. Humanitarian Leadership

**Combatting malign influences in the Americas:** OGA used diplomatic relations in the Americas region to mitigate efforts by states, including Cuba, Venezuela, and Russia, who are working to increase their influence in the region to the detriment of US safety and security. OGA coordinated with other U.S. government agencies to strengthen diplomatic ties and offer technical and humanitarian assistance to dissuade countries in the region from accepting aid from these ill-intentioned states. Examples include using OGA's Health Attaché office to persuade Brazil to reject the Russian COVID-19 vaccine, and offering CDC technical assistance in lieu of Panama accepting an offer of Cuban doctors.

Maybe there should be a "time out" for any and I mean \*any\* visits from Russia.

Up to the invasion of Crimea these people were arrogantly demanding visa-free travel with the EU.

Just freeze visas except for family emergencies.

It is Europe's security at stake.

Enough.

The part of the media that feigns anger at misinformation is uncritically promoting a story today by Luke Harding that Russia was blackmailing Trump -- the same Harding who has published many false stories, championed the Steele Dossier and claimed Trump was long a Russian agent.

## No invasion likely

On Russia, the NATO source estimated that it does not plan an invasion.

“To invade such a large country with such military forces [like Ukraine], you need military capabilities other than those that have been currently deployed,” the source said.

He stressed that NATO has neither an obligation nor the right to intervene militarily in Ukraine, as it is not a member of the Alliance, but things would be very different if a NATO country were attacked.

“If Russia made the mistake of attacking a NATO member state, then we would have a third world war.”

Still, the source added, Ukraine is a NATO “partner of increased opportunities”, and this means the alliance has some moral obligations, which could result in massive sanctions against Moscow.

Из мест лишения свободы и следственных изоляторов выпускают бывших военных, изъявивших желание защищать страну во время военного положения.

---

Эту информацию нам подтвердил прокурор Офиса генерального прокурора Андрей Синюк.

Вместе с тем он отметил, что по поводу большинства желающих вопрос еще согласовывается: учитывается их боевой опыт, заслуги перед государством и искреннее раскаяние.

В частности, уже отправился на боевые задачи Сергей Торбин, осужденный за организацию нападения на херсонскую активистку Екатерину Гандзюк. Ему разрешили взять в подразделение еще с десяток человек, которых он также выбрал из осужденных.

Бывший военный 72-й отдельной механизированной бригады ВСУ Дмитрий Балабуха, осужденный за убийство гражданского на остановке, также освобожден на время войны и уже несет службу.

Кроме того, заявление на участие в боевых действиях написал бывший командир батальона «Торнадо» Руслан Онищенко и комбат «Донбасса» Семен Семенченко. Но вопрос о них еще согласовывается.

«Вопрос сложный и решается на самом высоком уровне. Речь идет о большом количестве лиц, которые находятся под стражей и уже отбывают наказание по всей стране», — заявил прокурор ОГП Андрей Синюк.
